Your Honor,

My son stands accused of charges that are totally out of character. I know him to be an honorable, kind, compassionate, and hardworking man. His main object was never to get rich, rather he wanted to help people and make a decent living for his family.

James has been working since his early teens. He got his first degree while going to school and working. After completion of his first degree, he married his high-school sweetheart, Ashley. During the early years of marriage, James continued to further his career by earning more degrees all while supporting his family.

James and Ashley have two children, Allie (19) and Joe (15), who desperately need their Dad at home. We, his parents, and his siblings and other family members need him at home.

For the past 2 ½ years we have suffered thru the uncertainty and anguish of wait-and-see. To know James is to know that money was never his objective. He was focused on helping his patients. He has a big heart which is mostly the reason he is in this circumstance. My opinion is he hired people that were did not share his level of passion for patient care and they had problems of their own. It is not my position to discuss his co-workers. My focus and his family's focus is basically to talk and James and ask Your Honor to show compassion and kindness. I would also like to ask that these 2 ½ years that he has been limited as to his movements be taken into consideration.

James has led a law-abiding life. He has never been arrested and has never had so much as a speeding ticket. My fondest hope is that that's a consideration as well.

Your Honor, I have no experience writing a statement such as this. My heart is heavy, and my mind is foggy. As a parent who knows their child as the good person he is, this is very hard to understand.

Please take his history into consideration and let your compassion guide your sentencing.

With kind regards,

A handwritten signature in cursive script, appearing to read "James D. Lill" on the top line and "Gerda Litton" on the bottom line. The signature is written in dark ink.
